

KEY BOND INVESTMENT CONSIDERATIONS

There are a number of key variables to look at when investing in bonds: the bond's maturity, coupon/floating feature, credit quality, interest rate, price, yield and tax status. Together, these factors help determine the value of your bond investment and the degree to which it matches your financial objectives.

RISK

• **Credit Rating:** Measures default risk. **N/A** = Not available or insufficient information; **S&P** = Standard & Poor's Rating Agency; **MORR** = Morningstar Research Services; **BBB+** = BBB+ rating from Moody's

FYI: Fixed Rate Treasury Bond **VTM** = yield-to-maturity **VTC** = total return measure **CRR** = CreditRisk+ Scores **IFB** = Index

The presented rates are based on historical performance and do not represent future performance. Performance may vary significantly over time. Please consult your advisor for more information.
