

KEY BOND INVESTMENT CONSIDERATIONS

There are a number of key variables to look at when investing in bonds: the bond's maturity, subordination features, credit quality, interest rate, price, yield and its duration. Together, these factors help determine the value of your bond investment and the degree to which it matches your financial objectives.

Rate

EW Effective Rate Treasury Bond **10A** 10-Year US Govt New Treasury Auction **10000** Maturity/Year/Bond
FY17 Five-Year Treasury Bond **5000** yield/annually **5000** Credit/Investment-grade bond **0000** Credit/Investment-grade **000** Seller/Issuer/Broker

Most varieties of debt kind, including corporate or subordinated, depend on convenience with the information.
